DC3600

DC AIR CONDITIONER

Features

The DC3600 is designed to deliver 3600 BTU per hour of cooling capacity and optional 400 watts per hour of heating capacity. The Air handler is equipped with three 2" discharge vents standard. An optional 2" flange kit is available when hoses are to be attached. The DC3600 uses dual 300 CFM fans to deliver optimal airflow and recirculation and uses R134A refrigerant and standard SAE service ports. Standard Warranty is 1 year full replacement. Available in 12, 24, 36, 48, and 72 VDC

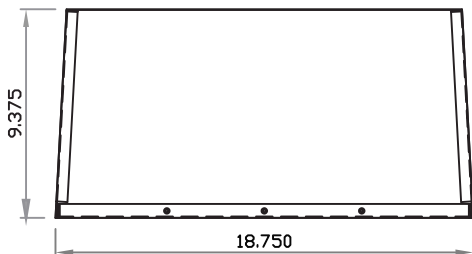

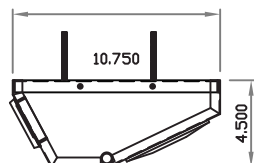

Specifications

- DC3600 uses R 134A
- Standard SAE Service Ports
- Standard warranty is 1 year – Full replacement
- Available in 12, 24, 36, 48 and 72 VDC
- Low Current Draw

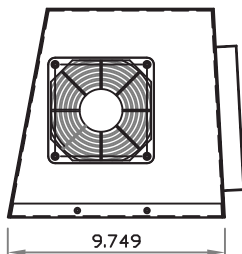

Evaporator / Air Handler	24" L x 11" W x 5" H	8 LBS
Condenser / Compressor	18.5" L x 9.5" W x 9.5" H	20 LBS
Line Set - Standard	6' L	Flexible
Output	3600 BTU / Hour Cooling	Optional 400 watts/hr heating
DC Current	30 Amps @ 12 volts	8 Amps @ 48 volts
Refrigerant	R134A	Uses standard SAE service ports
